PROFESSIONAL EXPERIENCE

FREECHARGE BY AXIS BANK

Gurugram, India

Lead Software Development Engineer

February 2025 - Present

- Working on the auto loan module to create seamless experience for customers. Along with the development of new capabilities in the module, I'm also responsible to optimize the current business logic for it to be more robust and efficient.

THOUGHTWORKS

Gurugram, India

Senior Consultant

January 2022 – February 2025

- Led a module of ecommerce credit price rule engine as senior consultant that brings the responsibility of effectively communicating with the dependent teams and managing the backend system architecture
- In a previous account, played a pivotal role in stabilizing the existing application architecture while simultaneously strategizing and implementing features for a seamless migration process. Additionally, led the development of key functionalities to support partner brand cards and B2B integration, resulting in a 20-30% improvement in troubleshooting and system performance, enhancing the experience of customers, and contributing to a 3-5% increase in business sales (as reported by the research team).

BRAVURA SOLUTIONS

Gurugram, India

Software Developer

July 2019 – January 2022

- Demonstrated expertise with Java and Angular over a span of 2+ years, taking on the responsibility of crafting efficient solutions while upholding code quality standards
- Conceptualized and implemented a groundbreaking microservices-based product, incorporating diverse services such as sentiment analysis, workflow triggering, and the associated web interface.
